## TIME TO SWITCH DRUGSTORES?

### Time to Switch Drugstores? Consumer Reports.

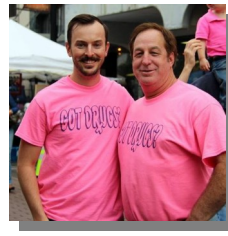

"If you're among the 47 percent of Americans who get medicine from drugstore giants such as CVS, Walgreen's, and Rite Aid, here's a prescription: Try shopping somewhere else. The best place to start looking is one of the 25,000 independent pharmacies that are making a comeback throughout the U.S." opens this article, which presents the results of a year-long survey of more than 32,000 readers about their drugstore experiences. The survey found that, by "an eye-popping margin," independent drugstores outranked all other pharmacies---including drugstore chains, supermarkets, mass merchandisers (e.g., Wal-Mart), and internet companies---in terms of providing personal attention, offering health services such as in-store screenings, filling prescriptions quickly, supplying hard-to-find drugs, and obtaining out-of-stock medications within 24 hours. Prices at independent pharmacies were lower than at chain pharmacies.

### Remember the day when...You Could talk to your Pharmacist?

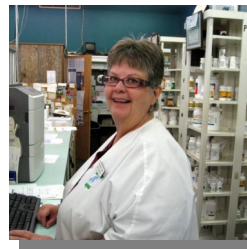

At Sentry Drug you still can! At Sentry, you will always talk to a live person, never a machine. We offer prompt, efficient prescription filling with no long waiting in line.

**Can't wait at all? We also offer free prescription delivery.**

You will always find friendly and knowledgeable staff to assist you. We pride ourselves on having long-term employees and consistent professional service.
